ABSTRACT

Designed to provide librarians, library administrators, and other interested persons with information organized to facilitate comparisons of libraries within the same library system, with comparable service populations, and with comparable expenditures, this publication contains information derived from the 1985 Annual Report/System Membership Applications submitted by public libraries in Texas. The report is divided into four sections containing statistics organized on the basis of the regional library systems, statistics organized on the basis of population served groups, total expenditures, and the percentage distribution of expenditures. A brief introduction provides short explanations and illustrations of how to read the tables in each of the four sections. Three appendices include the following: (1) the instructions and survey form from which the data were gathered; (2) definitions of terms and variables used in this analysis; and (3) an index of output measures. FOREWORD

Information presented in this volume was derived from the 1985 Annual Report/ System Membership Applications submitted by public libraries in Texas. The purpose in publishing the analysis is to provide librarians, library administrators, and other interested persons with information organized to facilitate comparisons of libraries within the same library system, with comparable service populations, and with comparable expenditures. This analysis is divided into four (4) sections. Section A presents the statistics organized on the basis of the Regional Library Systems; Section B on the basis of Population Served Groups; Section C on Total Expenditures; and Section D, a special section, presents the percentage Distribution of Expenditures.

Preceding Section A are four short explanations and illustrations of how to read the tables in each section. Following Section D are three Appendices: Appendix A contains the instructions and survey form from which the data were gathered, Appendix B contains definitions of terms and variables used in this analysis, and Appendix C contains an index of output measures. The Texas State Library has also published Texas Public Library Statistics for 1985 which lists by library some of the statistics compiled here.

E-notation (scientific notation) was used in several tables in the % column because of space limitations. In E-notation, the number before the E is scaled to the power of ten indicated by the numbers after the E. For example, 2E3 is the same as 2×10^3 or 2000.

We would like to thank those librarians who provided the data used in this report. Questions concerning this publication and suggestions regarding future editions should be directed to Mitchell Gidseg, Statistician, Library Development Division, Texas State Library, Box 12927/Capitol Station, Austin, Texas 78711 (512) 463-6622.

HOW TO READ THE TABLES OF LIBRARIES GROUPED BY LIBRARY SYSTEM

The numbers and explanations below refer to the illustration on the facing page.

1 These items explain what each of the numbers, given in the table's columns, means.

2 This "KEY" shows how the information given in 1 is arranged in the columns.

3 This shows that Column A for the Big Country Library System is 818,825; that is, for system member libraries in the Big Country Library System, the total number of book volumes held is 818,825. (The total is based on libraries that responded with an answer greater than zero.)

4 This shows that Column B for system member libraries serving the Texas Panhandle Library System is 21; that is, 21 system member libraries, serving the Texas Panhandle Library System, reported the number of book volumes held as greater than zero.

5 This shows that Column C for non-member libraries serving the Texas Trans-Pecos Library System is 5%; that is, the non-member libraries serving the Texas Trans-Pecos Library System hold 5% of the book volumes of non-member libraries in the state.

6 The three figures here would be interpreted to read: The total number of book volumes held by both member and non-member libraries serving the West Texas Library System is 1,355,263. Thirty libraries in this library system reported book holdings. These holdings were 6% of the total for the entire state.

HOW TO READ THE TABLES OF LIBRARIES GROUPED BY THE SIZE OF POPULATION SERVED

The numbers and explanations below refer to the illustration on the facing page.

1 These items explain what each of the numbers, given in the table's columns, means.

2 This "KEY" shows how the information given in 1 is arranged in the columns.

3 This shows that Column A for population served of 500,000 or more is 3,655,942; that is, for system member libraries serving a population of 500,000 or more, the average book circulation is 3,655,942. (The average is based on libraries that responded with an answer greater than zero.)

4 This shows that Column B for system member libraries serving a population between 15,000 and 24,999 is 41; that is, 41 system member libraries, serving a population of 15,000 to 24,999, reported a book circulation of greater than zero.

5 This shows that Column C for non-member libraries serving a population of 5,000 to 9,999 is 17%; that is, the non-member libraries serving a population of 5,000 to 9,999 circulate 17% of the books of non-member libraries in the state.

6 The three figures here would be interpreted to read: The average book circulation for both member and non-member libraries serving a population of 5,000 to 9,999 is 26,120. One-hundred and three libraries of this size reported circulating books. The book circulation for these libraries is 6% of the total for the entire state.

HOW TO READ THE TABLES OF LIBRARIES GROUPED BY EXPENDITURES

The numbers and explanations below refer to the illustration on the facing page.

1 These items explain what each of the numbers, given in the table's columns, means.

2 This "KEY" shows how the information given in 1 is arranged in the columns.

3 This shows that Column A for an expenditure group of $3,000,000 or more is 811,910; that is, for system member libraries with an annual expenditure of $3,000,000 or more, the average size of population served is 811,910. (The average is based on libraries that responded with an answer greater than zero.)

4 This shows that Column B for system member libraries with an annual expenditure of $50,000 to $99,999 is 49; that is, 49 system member libraries, with an annual expenditure of $50,000 to $99,999 reported serving a population (according to the 1980 Census) which is greater than zero.

5 This shows that Column C for non-member libraries with an annual expenditure of $5,000 to $9,999 is 24%; that is, the non-member libraries with an annual expenditure of $5,000 to $9,999 serve 15% of the population served by non-member libraries in the state.

6 The three figures here would be interpreted to read: The average size of population served by both member and non-member libraries with an annual expenditure of $25,000 to $29,999 is 7,051. Twenty-three libraries in this expenditure group reported serving a population greater than zero. The population served by libraries in this expenditure group represents 1% of the total population served of the entire state.

HOW TO READ THE TABLES CONCERNING THE PERCENT DISTRIBUTION OF EXPENDITURES

The numbers and explanations below refer to the illustration on the facing page.

1 This figure would be interpreted to read: City funds were the source of 48% of the total expenditures for member and libraries in the Big Country Library System.

2 This figure would be interpreted to read: County funds were the source of 5% of the total expenditures for member libraries in the Central Texas Library System.

3 This figure would be interpreted to read: School District Funds were the source of 1% of the total expenditures for member libraries in the North Texas Library System.

4 This figure would be interpreted to read: Funds from other sources accounted for 2% of the total expenditures for member libraries in the entire state.

ANNUAL REPORT/SYSTEM MEMBERSHIP APPLICATION FORM

Authorization to Apply for New or Continuing System Membership

LIBRARY NAME: _____ CITY: _____

This Authorization for Application should be completed **only** for the following reasons:

- Your library is applying for **new** membership in the Texas Library System.
- Your library wishes to **continue** its membership in the Texas Library System for the upcoming state fiscal year (SFY 1987).

All signatures are necessary. **Current** members of the Texas Library System MUST obtain all necessary signatures if they wish to **continue** their System membership during SFY 1987.

Signatures of city secretaries, county clerks, and so forth are **not** valid substitutions for the signatures of mayors, city managers, or county judges.

IF you are unable to obtain all necessary signatures before this form is due at the State Library, **THEN** send to the State Library all other pages except this Authorization and indicate approximately when the Authorization for Application will be forthcoming. After obtaining the required signatures, mail this page to the Texas State Library at your earliest convenience.

ANNUAL REPORT/SYSTEM MEMBERSHIP
APPLICATION FORM

Points to Remember

Remember these important points while completing the Annual Report/ System Membership Application Form:

- All answers should be **typewritten** or **printed.**
- All questions should be answered to the extent possible. A blank will be treated as ZERO.
- For questions that apply to your library but for which the answers are unknown, write out "NOT AVAILABLE"; for those that do not apply to your library, write out "NOT APPLICABLE" or leave the question blank; **DO NOT USE "NA."**
- Estimates should **not** be used in reporting expenditure information, but may be used as needed in the rest of the report. Simply mark estimates as "Est."
- All dollar amounts should be **rounded off** to the nearest dollar.
- IF you plan to include IN-KIND CONTRIBUTIONS on your expenditures report, **THEN** see the definition and example for calculating these amounts on the next page (iv).
- All pages should be returned to the State Library, including those for which your library has no information. Only those libraries that file an entire report will be:
  - Included in Texas Public Library Statistics for 1985 and in the Texas Almanac.
  - Eligible for System membership under the Texas Library Systems Act.
  - Eligible for federal Library Services and Construction Act grants.
- Shaded areas on any chart should **not** be completed.
- All fiscal years refer to **your library's local** fiscal year, unless otherwise indicated.
- Instructions for completing the Authorization to Apply for New or Continuing System Membership (Page ii) and the Library Use Charges and Fines Report (Pages 8 and 9 of the Form) have been included on the Authorization Page and Report Form themselves.
- See the attached copy of Instructions for the Annual Report/ System Membership Application Form for more detailed directions on specific questions.

In-Kind Contributions from Local Governmental Sources

Definition: An in-kind contribution is the value of a non-cash contribution to the operating expenditures of a library. In-Kind Contributions are generally from the city or county; however, a library may share facilities or staff with the local school district, or with a college or university in the same community.

Example of Calculation: A library is located in a building rented by the City. The City pays the rent and the utilities. The building contains 15,000 square feet, of which the library occupies 9,000 square feet. Rent and utility bills for LFY 1984 were as follows:

Rent ($800 per month)	$ 9,600
Gas	1,100
Electricity	1,300
Telephone (regular service charge)	300
TOTAL	$12,300

Since the Library occupies 60% of the building: $\frac{9,000 \text{ sq. ft.}}{15,000 \text{ sq. ft.}} = .60$
the In-Kind Contribution of the City would be 60% of the TOTAL expenses for rent and utilities or 60% x $12,300 = $7,380.

Breaking the amounts down yields the following figures:

60% x	$9,600 =	$5,760	
60% x	1,100 =	660	
60% x	1,300 =	780	$1,620
60% x	300 =	180	
		$7,380	

In this example, $1,620 would be reported in Item 14, columns (a) and (b) on Page 1 - Utilities; that is, under "Expenditures by Category" and under "Governmental In-Kind Contributions by Category." In the same manner, $5,760 would be reported in Item 15, columns (a) and (b) - Other Expenses (Rent), under both "Expenditures by Category" and under "Governmental In-Kind Contributions by Category." The total of $7,380 would be included in Expenditures from the City in Item 17(a) and in the Total at Item 20(a). This same amount ($7,380) would also be shown in 17(b) and 20(b) under "Governmental In-Kind Contributions by Source of Funds."

For further explanation of In-Kind Contributions, see pages 3 and 8 of the Instructions booklet. Remember that reporting of In-Kind Contributions is OPTIONAL.
